JUNE - JULY

How parents can keep children & teens learning & engaged all summer long!

The Kern County Library Summer Reading Challenge encourages children and teens to read what they want over the summer months, which helps instill a love of recreational reading. Numerous studies show that those who read for fun during the summer out-perform others once back in school. The KCL Summer Reading Challenge offers FREE events and programs for all ages, exposing residents to new skills, ideas, and learning opportunities.

Visit [KCLsummerchallenge.org](https://www.kernlibrary.org/summerchallenge) to learn more about Summer Reading, sign-up online, view events, download printable content, and more!

P.S. Summer Reading is for Adults too!!

When parents model reading, it helps show children there's enjoyment in reading and purpose in learning. When adults read for themselves, they enjoy a range of benefits including enhanced empathy toward others, a reduction in stress, a lower blood pressure and heart rate, and it also prevents cognitive decline as you age!
